Figure Drawing Lesson 024 - A Switch in Thinking

2026 Riven Phoenix and AlienThink.com

1		Hey guys, my name is Riven Phoenix and welcome to the structure of man, learn to draw the human
2		figure from your mind training course. So in the previous lesson we took all those concepts
3		that we've been looking at the chance cavity and we understand how it works and gives us
4		the ability to do it in a three-fourth view and we also understand to be aware of this negative

2026 Riven Phoenix and AlienThink.com

5		space that's in here, keep that in mind and also understand that how this chance cavity
6		comes over here and then it goes in there. So to finish wrap up this section, so there
7		really wasn't much to understand the chance cavity. To wrap this up we're now going to
8		look at our new milestone and that is to look at our toolkit and see where we are in the

2026 Riven Phoenix and AlienThink.com

9		toolkit concept. Right, so now when we draw out the toolkit we're just going to draw
10		out about here the front here and here I'll just draw another line here and then again
11		just talking about that drawing process just get your ideas down and here we'll do the
12		side over here. Right, so here I'm just going to divide this in half, divide this in

2026 Riven Phoenix and AlienThink.com

13		half and divide this in half. The pack line, the pack line over here, bottom of the
14		packs and this is going to be above where the knees are going to be above this line,
15		above this line. Right, we know that the navel is going to be here navel and navel.
16		Right, this should be an x over here. Right, and then you're going to get the line for the

2026 Riven Phoenix and AlienThink.com

17		chin, line for the chin and line for the chin. Right, so notice how fast we can
18		draw this step out. So here now when I draw it out I'm just going to be kind of
19		more sketchy about it. Right, so here I know that the circle is just going to be like
20		this. Over here I know the bottom is here and then the line for this, the middle of

2026 Riven Phoenix and AlienThink.com

21		this is just going to be here. I'm going to get the jawline like this. Right, I know
22		that the bra is just going to be above here and the nose is going to be here,
23		divide the mouth and then just start turning inward over here. Right, and I know
24		that the nose is just going to go like this and just mark out the eyes like so.

2026 Riven Phoenix and AlienThink.com

25		Right, do it pretty quickly over here. Right, I did it in this way. Okay, so now
26		once that's done I can just come back and erase all the stuff here and now really
27		just look at doing this much for nicer and near. Right, so over here it's going to be
28		the line over here for the nose.

2026 Riven Phoenix and AlienThink.com

29		Just draw it out over here. Just like this. Right, so you can choose like different
30		processes. Right, you can do the whole thing at once if you want. So this is going to be
31		very quick. We know that how to do the chest cavity now. Right, it's just going to be
32		like this. I know it's really just half of this over here. So really I'm just going to

2026 Riven Phoenix and AlienThink.com

33		eyeball this over here like this. I know that above the nose is probably just three
34		fourths of a view. Sorry, three fourths of that measurement like this. Right, so
35		this should be very easy to you. Now you know how the chest cavity is supposed to be.
36		You can just be sketchy about it. Right, so and this is really basically the same

2026 Riven Phoenix and AlienThink.com

37		concept where the nipples should be. Right, so over here it's going to be three
38		fourths over here. Right, I'm dividing this in three sections. So it's really one
39		third. Sorry. Right, so here I'm just going to do this over here like this. Right
40		now, notice that we're now getting ready to do another part of the body and that

2026 Riven Phoenix and AlienThink.com

41		is going to be really looking at we're really going to understand this area still.
42		Right, we haven't gotten really to the pelvis area yet. And then here I'm just
43		going to draw it out. Right, so notice that when I'm drawing it right now in the
44		video I'm trying to be as quick as I can. But the more time you take, right, your

2026 Riven Phoenix and AlienThink.com

45		drawings are going to be much more successful here. Right, so but here because
46		I've been drawing for so long, right, I just know that it's going to look right.
47		Right, so here when I erase this stuff, I can just always just come back and quickly fix
48		this. Just adjust it to that idea. And here where the belly button is, right,

2026 Riven Phoenix and AlienThink.com

49		we know that this is where the shoulders are going to be. And basically just come
50		down here like this. And just put the elbow over here. Right, but notice that this
51		area here of our invention is it's improving. Right, we've gotten this area
52		solved. So it's slowly starting to become a skeleton. Right, and because we're

2026 Riven Phoenix and AlienThink.com

53		inventing it. Okay, so once we've done this, same thing here. I can just measure
54		from the brow, find out where the nose is going to be. Right, and then over
55		here, I know that it's just going to turn over here.
56		Just going to shape that in just like this for the back. Right, so here I know

2026 Riven Phoenix and AlienThink.com

57		that the clavicle is going to be here. It's really just the same concept here.
58		And over here on third up, I know it's just going to come down like this over here.
59		Right, and even when you divide this like in three sections, and if you come down just
60		a little below, it's fine. Right, it's all about very close approximation. And over

2026 Riven Phoenix and AlienThink.com

61		here, we already know this is no brainer. We can just do it this way. Right, just
62		really nothing more to it. Right, so remember when you put these guys down here,
63		you want to be close to this. Right, so we're doing the back here. And here I'm just
64		going to do it this way over here again, going to do it this way over here again. Right,

2026 Riven Phoenix and AlienThink.com

65		so and then finish off, finish it off by doing this for the arms. Right, and you can
66		experiment with by moving the hand like this if you want to. So let's do that if we take
67		the hand from here. Right, we know that it's just going to be over here. We can take
68		the hand over here and make it a little different. Right, so get used to the idea of how

2026 Riven Phoenix and AlienThink.com

69		this is going to start moving also. Okay, so now just to wrap this up, we just need to do
70		this side. So this is all we all this have to do these toolkins at these stages, because
71		it measures the milestone. Right, so here I'm just going to finish this off and start
72		go like this. And this way, I already know it's just going to be here. This is going to

2026 Riven Phoenix and AlienThink.com

73		cut from here. Just like this, I know that the center is here, the brow. Right, so where
74		this is. And that's it. Right, so here I can now just erase some of these lines and make
75		it much better looking.
76		I'll do the mouth over here. Right, so here again, bottom of the peg, the clavicle is just

2026 Riven Phoenix and AlienThink.com

77		go here. Right, make sure you always have that space. And you already know, right, you should
78		be able to just eyeball this now. Just go like this over here and do this. And of course,
79		just make that finish up the chance cavity. Right, notice that I didn't even measure because
80		I can just eyeball this now. Right, studies. And we know that for here, we're just going

2026 Riven Phoenix and AlienThink.com

81		to do that line and the idea for the three fourths concept here. And that's it. Just finish
82		it off. And we already talked about this socket here that really the bone is going to come
83		this way. Right, so here I'm just going to balance this guy off like this. And that's
84		it. Right, and then finish off by doing just the arm in this way. Right, so here we've

2026 Riven Phoenix and AlienThink.com

85		again accomplished that goal every time we draw the skull or the chance cavity, we're
86		always going to do it correctly. Okay, so I'll see you in the next lesson. Thanks.
87		Bye.
